

# WHO MAKES PROGRESS IN TRANSPORTATION

The Custom Companies manages thousands of shipments daily on the information highway

Perry Mandera,  
President, The Custom Companies

**THE CUSTOM COMPANIES**, a global transportation logistics provider, uses FACTS2000, a freight management system from Progress Partner, Carrier Logistics, to eliminate logistical headaches and enable its truck fleet to deliver shipments faster, more reliably, and with better customer information, including Internet customer service. "With this technology we fulfill our 'one call does it all' philosophy, making us a total transportation resource to customers," says Perry Mandera, President, The Custom Companies, Chicago, IL.

**CARRIER LOGISTICS'** solutions for the transportation industry enable customers worldwide to stay ahead of the competition.

**PROGRESS SOFTWARE** simplifies the job of creating the world's best business applications.

To find out how to make progress in your business, please contact Carrier Logistics at [www.carrierlogistics.com/tt.htm](http://www.carrierlogistics.com/tt.htm) or call +1 914 332 0300.
